The world's best feet-inch calculator just got better!

GENERAL CONTRACTORS • CARPENTERS • FRAMERS
 ARCHITECTS • DRAFTSMEN

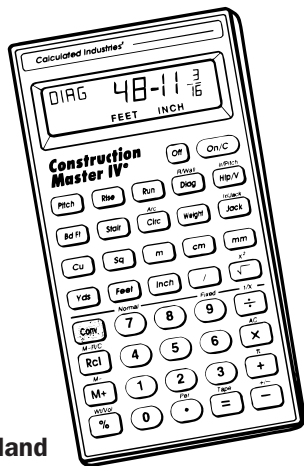

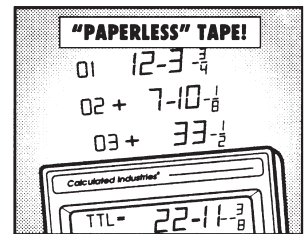

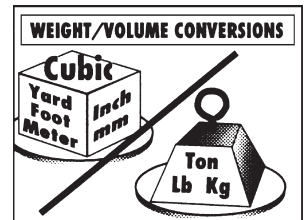

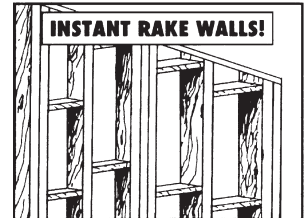

Here's why your customers need it in their tool belt, truck, or on their desk:

- **More New Solutions For Rafters & Right Angles!**
 - Custom Pitch, Rise, Run, Diagonal, and Hip /Valley and Jack Keys now instantly find lengths for:
 - Common Rafters, Regular 45° and Irregular (non-45°) Hip/Valley & Jack Rafters.
 - Stores Pitch in inches and degrees.
- **NEW! "Paperless" Tape!**
 - For reviewing past 20 entries. Great for dimension checks.
- **NEW! Weight-per-Volume (Lbs, tons, kg) Key!**
 - Lets you convert between weights and find weights of any material (i.e., tons per cubic yard, etc.).
- **NEW! Rake-Wall Key!**
 - Gives you each stud length for any pitch or o.c. spacing.
- **Improved Stair Key!**
 - Instantly finds number of Risers, Treads, Riserheight, Tread Width, any Overage or Underage. Also gives Stringer Length and Incline Angle.
- **Instant Circumference, Circle Area & Arc Lengths!**
 - One button solves post holes, columns, pillars, arches and more.
